

Controlled Substance & Opioid Prescribing Educational Program

LifeGuard offers a comprehensive program in collaboration with Penn Medicine, which identifies pitfalls related to controlled substances and opioid prescribing. We will assess your personal prescribing practices and documentation through chart review and provide strategies for improvement in documentation.

Why Choose This Program

LifeGuard's innovative, active educational environment employs hands-on, experiential learning, inclusive of case studies with standardized patients. Learners will take with them the skills to improve their management of patients receiving controlled substances and opioids.

The LifeGuard Approach

Our pathway is intended to go beyond passive education, identifying not only educational gaps but also practice-based variations, providing the physician with opportunities to recognize individual issues and make substantial improvements to their practice of controlled substance and opioid prescribing with the tools offered by this program.

If you would like to learn more about LifeGuard's assessment programs, please contact our LifeGuard Director, Marcia Lammando, RN, BSN, MHSA, at mlammando@lifeguardprogram.com or give her a call at (717) 558-7864.

BE SMART, BE SAFE, BE SURE
