

Medical Record Documentation

in partnership with KSTAR

May 21-22, 2018 Location: Penn Grant Conference Center

The Medical Record Documentation course, a collaborative effort between LifeGuard and KSTAR, is a two-day, in-person program designed for physicians to increase their ability to effectively maintain medical records. Maintaining proper medical records reduces risk to the provider, enhances quality of care and assists in meeting compliance standards.

Participants are expected to be onsite for the two-day course. Presentations will utilize various teaching approaches to include pre- and post-testing, lecture, precepted chart review session and skills practice. For credit, participants must be present and actively participate throughout the course. This course has been approved for 16.25 CME hours* After attending this course, participants will be able to:

WHAT TO EXPECT

After attending this course, participants will be able to:

- Improve the quality of medical record documentation in his/her respective practice;
- Reduce risk by understanding the legal implications of medical record documentation;
- Understand licensing and medical board requirements specific to medical record documentation;
- Identify documentation pitfalls and traps;
- Improve the use of "E & M" codes for office visits; and
- Utilize an electronic medical record effectively.

Faculty includes professionals with the following expertise:

- Legal
- Medical Board
- Coding
- Electronic Health Records
- Privacy and Security
- Clinical

Course fee: \$1,150/participant. \$250 non-refundable (if you cancel before the course). Course is limited to a maximum 20 participants due to the interactive nature of coding exercises and review. **Registration closes May 11, 2018.**
